

PT. PAPAJAYA AGUNG
Trust & Reliable

**Trust
& Reliable**

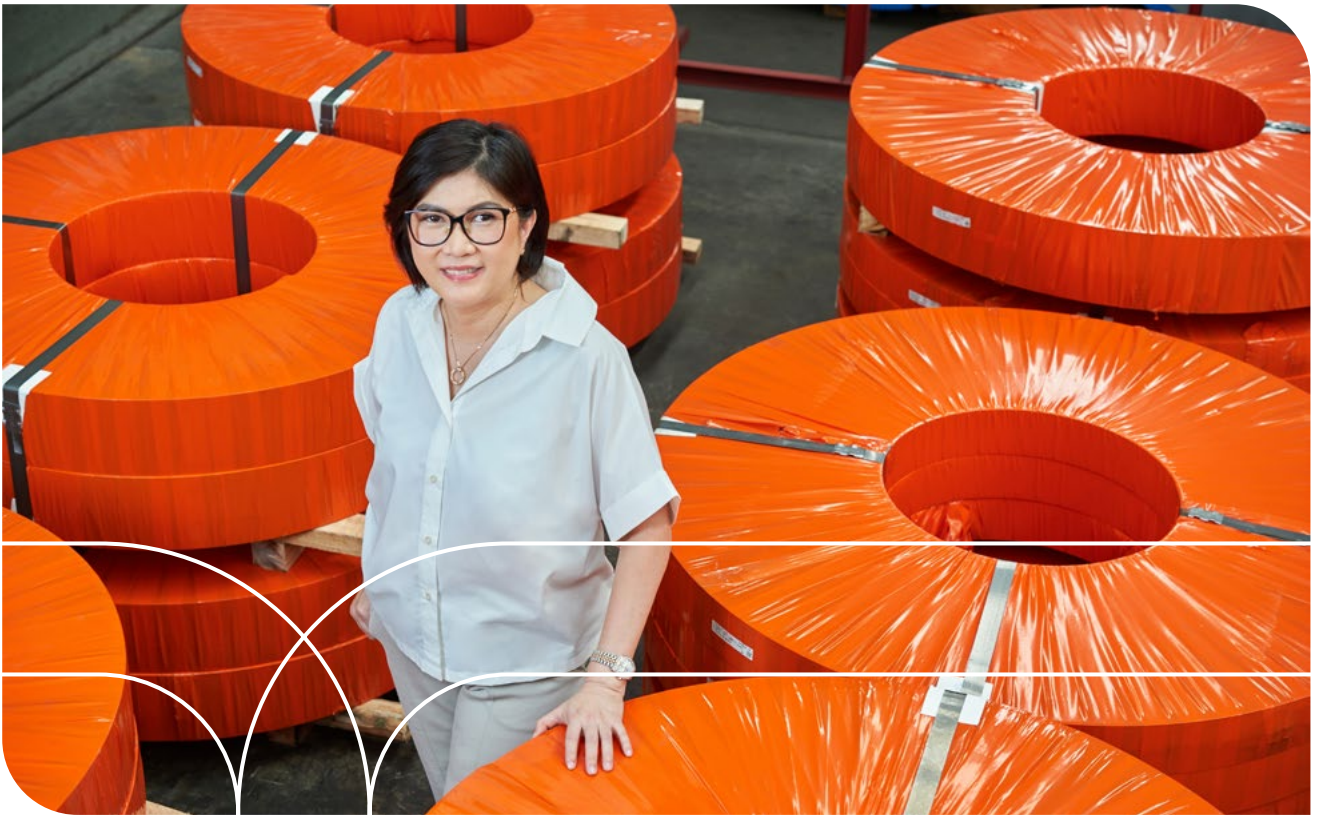

Building Trust *Through* Reliable Coils

Papajaya Agung

At a Glance

We are a steel service center and steel strapping manufacturer established since 1995.

PT Papajaya Agung is a leading steel service center and steel strapping manufacturer in Indonesia. Established in 1995, we have been providing high-quality steel products and solutions to a diverse range of industries for over two decades.

Our profound principle: **"Trust and Reliable"** has been our guiding principle as we have grown from a small steel strapping manufacturer into a comprehensive coil center, specializing in slitting and shearing.

We have invested in state-of-the-art facilities and a skilled workforce to ensure that every coil we process meets the highest standards of quality. Our dedication to excellence has made us a leading force in the local coil center industry in Indonesia.

Vision

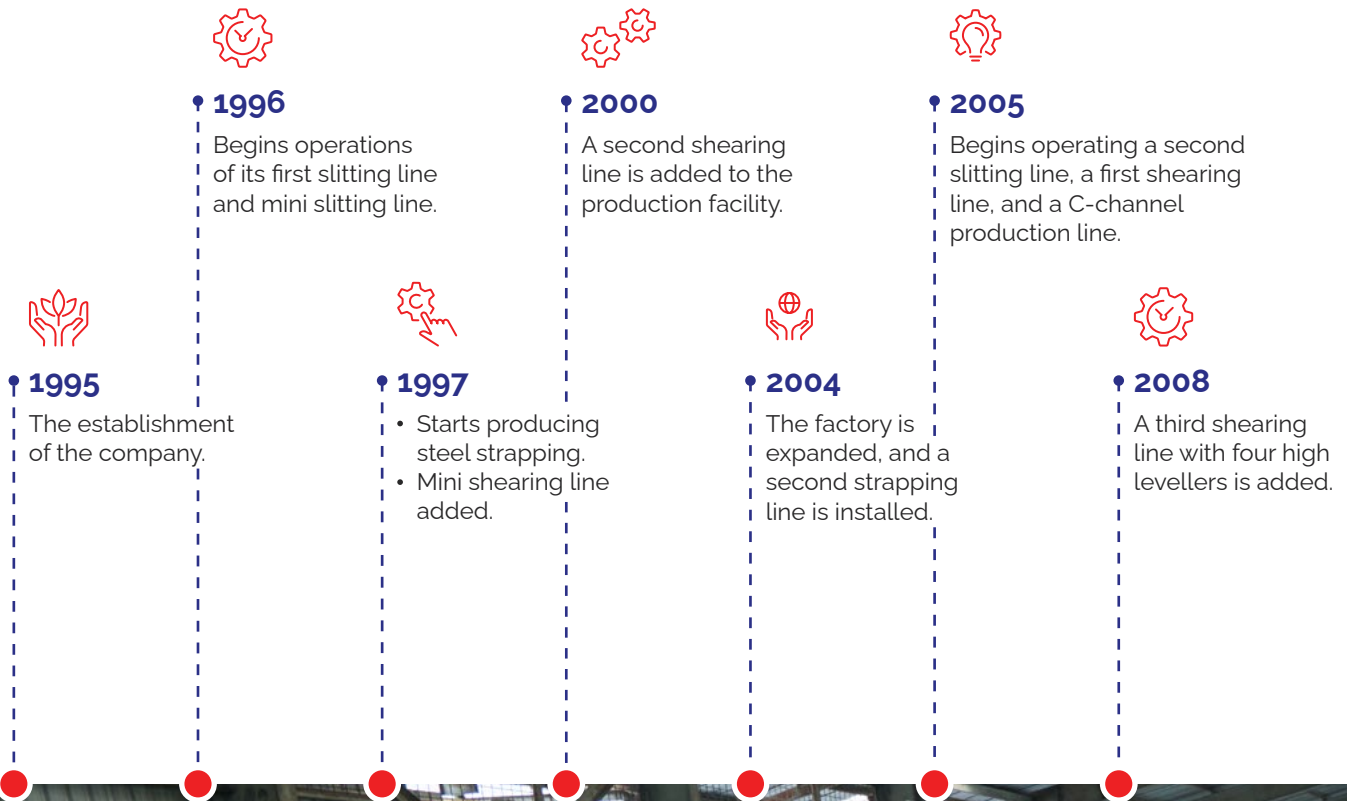

To be the most trusted and reliable coil center in Indonesia, recognized for excellence in quality, service, and customer satisfaction

Mission

- Achieve customers satisfaction through quality and services
- Well-maintained and clean work environment
- Reliable and professional human resources

Company Milestone

2011

Add a third slitting line and a second manual shearing line.

2017

A third manual shearing line is added.

2024

Begins construction of a new factory expansion.

2010

A manual shearing line is installed.

2013

A fourth slitting line is added.

2021

ISO 9001:2015 Certification.

“Quality is never an accident; it is always
the result of intelligent effort.”

— John Ruskin

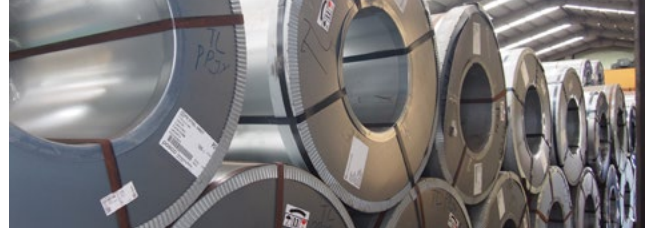

Products & Services

At PT Papajaya Agung, we offer a wide range of high-quality steel products tailored to meet your specific needs. Our products are sourced from reputable steel mills and undergo rigorous quality control before being processed to your exact specifications.

Hot Rolled Coil

A versatile steel product with a rough, hot-rolled surface, ideal for various applications.

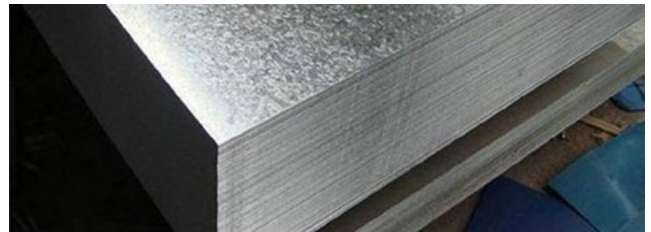

Hot Rolled Pickled & Oiled

A refined version of hot-rolled coil, treated to remove surface impurities and improve its appearance and corrosion resistance.

Cold Rolled Coil

A highly finished steel product with a smooth, even surface, suitable for demanding applications requiring precision and aesthetics.

Coated Steel

Steel sheets coated with various materials, such as galvanized, zinc aluminium, color coated to enhance corrosion resistance, durability and appearance.

Checkered Plate

A steel plate with a patterned surface, commonly used for non-slip flooring, walkways, and industrial applications.

Ship Plate

Thick steel plates specifically designed for shipbuilding and other marine structures.

Tailored Solutions for Your Steel Needs

One-stop solution for all your flat steel needs, offering everything from standard sizes to fully customized solutions.

Precision and Accuracy

Our advanced equipment and skilled people ensure that your materials are cut with exceptional precision, minimizing waste and maximizing efficiency.

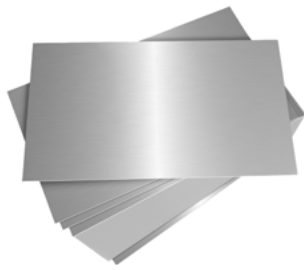

Customization

We offer tailored solutions with a focus on customization, providing products and services designed to meet the unique needs of each customer.

Quality Assurance

Our commitment to quality extends to our cutting services. We adhere to strict quality control standards to ensure that your materials meet the highest standards.

Facilities & Machinery

State-of-the-Art Equipment for Optimal Efficiency

At PT Papajaya Agung, we invest in the advanced technology to ensure that our productions are efficient and capable of delivering the highest quality results.

Uncoiler shearing machine

Our 30 ton capacity uncoiler allows us to process heavy steel coils by ensuring smooth and controlled unwinding, reducing material stress and deformation. It also allows to significantly enhance the production efficiency and optimizing throughput.

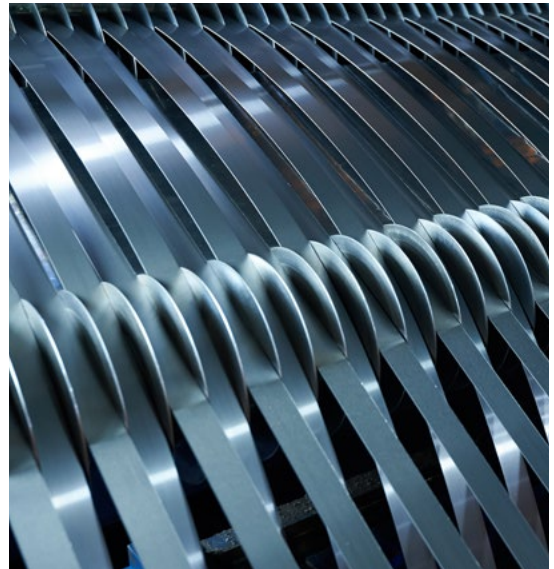

Four-High Leveler Shearing Machine

Our 4-high leveler offers the advantage of better flattening, handling coils up to 16mm thickness, 2000mm width, and cutting lengths up to 12 meters.

Shearing machines capacity

Our steel sheet shearing machine boasts impressive capacities, handling steel sheet up to 16mm thickness providing unmatched performance for large-scale steel processing.

Slitting machines capacity

Our steel slitting machines are designed to process materials ranging from 0.2mm to 6mm in thickness, delivering precise slitting to meet the diverse needs of various industries.

Why Papajaya Agung

Papajaya Agung: Your Premier Coil Center Partner

As the market leader in local coil centers, Papajaya Agung sets the benchmark for quality and service. Our ISO certification is a testament to our commitment to international standards.

Papajaya Agung offers a compelling alternative. As a locally invested company, we've set a new standard for the industry. Our state-of-the-art facilities, rivalling those of global giants, are a testament to our commitment to quality.

Our clean environment and advanced machinery ensure that your products meet the highest quality standards, while our attention to detail ensures that our products consistently exceed expectations.

How We Work

Our Commitment to Excellence

We've forged strategic partnerships with selected top-tier mills, ensuring that the raw materials are perfectly suited to the customer's needs. Combined with our rigorous quality control and integrated Standard Operating Procedures (SOPs), every order is handled with precision and care. Our team of skilled professionals, equipped with in-depth knowledge and a robust quality control system, guarantees that your products are delivered on time and meet your exact requirements.

Industry Sectors

Serving a Diverse Range of Industries

We are proud to serve a wide range of industries, providing essential steel products and solutions to drive growth and innovation.

Automotive

We deliver precision steel cutting for automotive applications, providing accurately sized materials for the manufacture of various automotive parts such as chassis, front suspension members, engine mount insulators, and more.

Oil and Gas

Our steel processing solutions support the manufacturing of storage containers, oil drums, and gas cylinders, providing high-quality materials that ensure safety, durability, and reliability in the storage and transportation of gases and liquids.

Pipes

We supply materials for the production of pipes across various sectors and applications, ensuring consistency and quality for critical infrastructure.

Doors and Gates

We deliver precisely processed materials for manufacturing products like garage doors, rolling doors, and folding gates, enhancing strength, durability, and security.

Electrical and Energy

We supply steel materials to the electrical and energy sectors for the production of infrastructure components such as transformers, cable trays, light poles, and electric vehicle charging stations.

Hardware Manufacturing

We provide precision steel cutting for the production of hardware components such as racking, nuts, hinges, door latches, and door handles, ensuring accuracy and reliability for consistent performance.

Home Appliances

We supply precision-cut materials for the production of home appliances, including furniture, stoves, lamps, switches, shelving, filing cabinets, and more, ensuring high standards of accuracy and durability.

General Steel Applications

Our custom steel cutting services cater to a wide range of industries, including construction, roofing, heavy equipment, and various types of flat steel fabrication.

Our People

At PT Papajaya Agung, our people are the driving force behind our success. We are committed to fostering a talented and dedicated workforce that shares our passion for excellence. Our team of skilled professionals works tirelessly to deliver high-quality products and services that meet the evolving needs of our customers.

We invest in our employees' growth and development through comprehensive training programs and opportunities for career advancement. By empowering our workforce, we create a culture of innovation and continuous improvement.

Our people are the heart of our business, and their commitment to excellence is reflected in every aspect of our operations.
